A SILVER MEDAL,

John H. Bufford's LITHOGRAPHIC ESTABLISHMENT,

490 Washington St.

BOSTON.

Notice.

Branch Office,
No. 201
Broadway,
New York.

OUR FACILITIES for producing Lithographic work cannot be excelled.

PRICE AS LOW IF NOT LOWER than other establishments.

IT IS A MISTAKEN IDEA of the public that I confine myself to first class work only, for those who want a cheap class of work can have it, and better work for the same price than others can produce.

HAVING LATELY GREATLY INCREASED my machinery and with the best corps of Printers and as large a corps of Artists as any establishment in the country, I am better able than ever to fill the largest order at moderate figures, and without delay.

I am in no way connected with any other establishment in the city my only place of Business in Boston is 490 Washington Street corner of Beach Street.

Promptness a Specialty.

Very Respectfully

The Patronage of
all Solicited.

John H. Bufford.

FIRE ALARM TELEGRAPH.

JOHN F. KENNARD, SUPERINTENDENT. Salary \$3000. Office, City Hall.

[Chosen by concurrent vote.]

[He has also the care of all the Public Bells and Clocks.]

Operators, Charles A. Stearns, Jas. N. George, Cyrus A. George, Granville S. Mendell. Salary, \$4 per day.

Repairers, George S. Thom, Adam McAfee, Uzziel Putnam, William H. Godfrey. Salary, \$4 per day. *General Assistant*, Chas. M. Chaplin. \$3.50 per day.

A constant watch is kept at the office, City Hall, night and day, by the operators. Each operator serves two alternate terms, of three hours each, as principal, and the same as assistant operator; so that twelve

hours' service at the office, out of every twenty-four, is required from each operator. No operator is permitted to sleep during his watch, unless expressly relieved by some one else, and by consent of the Superintendent.

Each operator is accountable to the Superintendent for any mistakes that may occur at the office during his hours of duty.

An accurate account is kept of the time of giving each alarm, and of the station from which it originates, and all other necessary information.

Alarms are transmitted to the Central Office, from the Signal Stations or Boxes, by pulling a slide in the Box. The police officers, and one other person resident near each station, have keys to the Boxes.

The ringing of the bells and the tapping of the Boxes, each denotes the number of the Station from which the alarm originated: thus, — one blow, a pause, three blows, another pause, and two blows (1—3—2) indicates that the alarm came from Box No. 132.

Alarms are usually given in less than a minute from the time the Box is operated.

Directions to those who hold Signal-Keys. — 1. If a fire is discovered in your vicinity, go to the nearest Box. 2. SECT. 43. When water is required for purposes which are not specified in the foregoing tariff, the rate shall be fixed by the Cochituate Water Board.

SECT. 44. Whenever two or more dwelling-houses, or other estates, are valued together for the assessment of taxes, it shall be the duty of the Water Registrar, under the direction of the Cochituate Water Board, to make a separate valuation of the same; and whenever a portion only of any estate is justly chargeable for any water rate, it shall be the duty of the Water Registrar to make a proper valuation of the said portion; and the water rates hereinbefore provided shall apply to such valuations respectively.

SECT. 45. When large quantities of water are required, as in the case of railroads, hotels, manufacturing and other establishments, the Cochituate Water Board shall have power to ascertain by meters the amount of water used; and the proprietors or occupants of hotels, taverns, boarding-houses, or any other establishment using large quantities of water, shall also have authority to place within their premises, at their own expense, a sufficient water-meter, to be approved by the Water Registrar, for the purpose of measuring the quantity of water by them respectively used. The charge for the use of water by meter shall be *three cents for one hundred gallons*, to be collected quarterly by the Water Registrar; and all such bills shall be paid within ten days thereafter, or the Water Registrar shall cut off the supply after sending a summons as provided in Section 15.

SECT. 15. In all cases of non-payment of the water rent for sixty days after the same is due, the Water

Registrar shall serve a summons at the premises of such delinquent; and unless said rent is paid within three days thereafter, together with twenty-five cents for said summons, the Water Registrar shall cut off the supply; and the water shall not be let on until the amount due, together with the twenty-five cents for said summons, and two dollars for the shutting off and letting on, is paid; *provided*, that no occupant shall be required to pay the amount due from a former occupant; and *provided*, also, that in cases of specific supplies, or for fractional parts of the year, when the water has been let on the summons may be served, and the water cut off immediately; and it shall not be let on again except upon the conditions before mentioned. The foregoing provisions shall apply when two or more parties take water through the same service-pipes, although one or more may have paid the proportion due from him or them.

SECT. 26. No hose shall be attached or used in any stable for washing horses or carriages, or for any other purpose whatsoever, except for extinguishing fires, under a penalty of ten dollars for each offence; and, if this penalty shall be incurred and shall not be paid within two days after demand for the same shall have been made at such stable, the water shall be cut off from such stable, and shall not be let on again until said penalty shall be paid, and also the additional sum of two dollars for cutting off and letting on the water.

TILTON MCFARLAND SAFE MANUFACTURING CO. BURGLAR AND FIRE-PROOF SAFES,

Steel Vaults and Combination Bank Vaults.

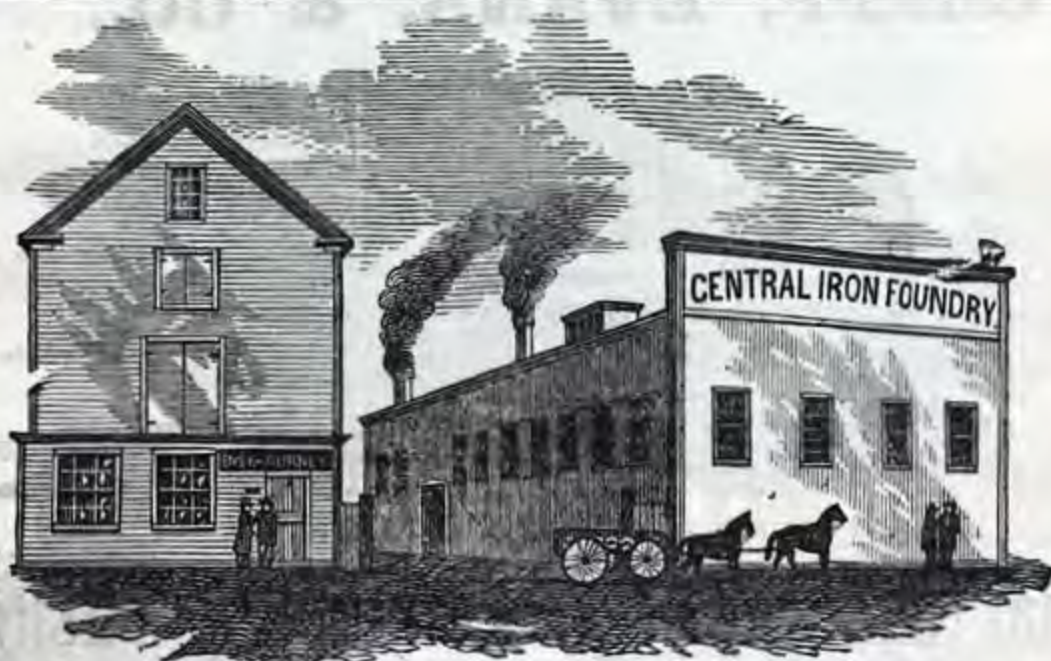

Manufacturers of MCFARLAND'S Patent BANK VAULTS and IRON SAFES of Improved Patterns.

From the Official Report of the Judge at the Eleventh Exhibition of the Massachusetts Charitable Mechanics' Association.

BURGLAR PROOF SAFE.—In his efforts to produce a Burglar-Proof Safe, the inventor has evidently made a long stride in the right direction. This Safe is no copy of those in general use, but is quite original; the outer shell or frame (with well rounded corners), being one continuous band of iron and steel welded together at the ends; the front and back being secured to this shell in a remarkably strong and ingenious manner. All the bolting is done from the inside, and the points of the steel bolts are hardened.

Taken as a whole, it is the most formidable obstacle ever placed between the "burglar" and his coveted treasure. We recommend the award of a gold medal.

MANUFACTURERS AND IMPORTERS OF

Surgical and Dental Instruments.

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

ATOMIZERS.

Apparatus No. 15, Pat. March 24, 1868, and March 16, 1869.

All its joints are hard-soldered. It cannot be injured by exhaustion of water or any attainable pressure of steam. Is compact, portable, and cheap in the true sense of the word. Also a great variety of Hand Apparatus.

NASAL DOUCHE.

Eight Different Varieties at \$1.20 to \$3.50 each.

In using the Atomizer or the Nasal Douche, the patient should apply to his physician for the proper remedies.

TRUSSES.

A LARGE ASSORTMENT OF BEST PATTERNS from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person two inches below the top of the hip-bone. If the rupture is at the navel, the measure should be around the body at the navel.

N.B.—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity, the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee-caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, &c. Also Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for males and females; Galvanic Batteries, Hearing Trumpets, Auricles and Conversation Tubes for the Deaf; together with many other articles for use of the sick and invalids.

A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics' Association, as will be seen from the following report, signed by a leading New-England Surgeon and Physician:—

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition, the highest premium. * * * The various other instruments for Inhalation of Atomized Liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except of their own manufacture. Gold Medal.

(Signed),

GILMAN KIMBALL, M.D., Chairman."

Save your Lives. Glass Lamps Explode.

Save your Money. Glass Lamps Waste Oil.

The only Safe Light. "Gas Light is a costly Luxury."
The Cheapest Light. Gas Light is Unsteady.
The Steadiest Light. Gas Light is Eye-destroying.

Rev. W. S. TYLER, D.D., Prof. in Amherst College, says, "I know of nothing that can compare with it. I prefer it to my gas burner. For safety, for economy, and for the perfection of the light, it deserves to come into universal use."

SAMUEL P. DUFFIELD, M.D., Ph.D., Prof. of Chemistry, Detroit Med. College, says, "I tried three times to explode it, and failed. The tests I am satisfied with; and therefore, consider it free from any danger of explosion, which cannot be said of any other lamp."

"The N. Y. Tribune" says, "No other is perfectly safe. All the points of danger have been so carefully guarded that disaster is simply a mechanical impossibility."

CHARLES T. JACKSON, M.D., of Boston, Massachusetts State Assayer, says, "I find it to be free from all danger of explosions, when exposed to the severest proofs. I cannot fail to recommend it as the safest Kerosene Lamp I have met with. Its general introduction, in place of the unsafe glass lamps now in common use, will not only save much property from fires, but also greatly diminish, if not wholly prevent, those fearful accidents from explosions which have so often proved fatal to life."

The Union Windlass & Union Power Capstans, D. N. B. COFFIN, Jr's. Patents.

SHIPS' MAIN & FORCE PUMPS,
BOTH AMERICAN AND ENGLISH.

Steerers, of the best kinds in use.
REED'S PATENT, JACKSON'S do., &c., &c.

The Union Windlass embraces the best Power Capstan in use, with all its facilities for working ropes, &c., together with the best purchase known for working the anchor chains or cables. The anchor can be let go almost instantly without overhauling the chain, and with a gradual and easy paying out of the chain, and a gradual and easy bringing of the vessel to, without surging. The usually sufficient power of controlling the cable in letting go the anchor and paying out can be doubled at pleasure for greater security in rough weather, &c. The power purchase is immense, while the quick purchase is fast enough for all purposes. It occupies little space either in breadth or height. The changes are the simplest possible. In fact, a smaller crew can work any vessel when provided with this windlass. Write for Circular and Prices. Give orders, when possible, two months at least in advance. We invite the closest examination of these windlasses from those who want the best article for the least money.

"Amazene" and Common Brake Windlass Purchases, Winches, &c., Elastic Sheet Fastenings, Travellers, &c.; Ships' Elastic Riding Stoppers; Ships' Compasses, Bilge-water Indicators, Ships' Window Supporters, Rudder Braces, Riding Bits, Ships' Castings, Hose, Hose-Pipes, &c., &c. Generally the best modern improvements in this line.

THIS WHITE LEAD

Is Manufactured from the best American Refined Pig, from Galena, Ill., and is superior in Body, Finer and Whiter, than any other American, and equal to any English manufacture.

It is Warranted Strictly Pure.

REFERENCE:

I have made Chemical analyses and examination of this brand of White Lead, with the following results:—

It consists of pure carbonate of Lead, free from dust or any impurity, ground in Oil. It has uncommon body, or density, and is finer and whiter than other standard brands. This Lead is ground in pure Linseed Oil, free from destructive chemicals; and it has all the most desirable characters of a superior White Paint.

WASHINGTON Life Insurance Co.

OF NEW YORK.

CHARTERED, 1860.

Cash Assets Exceed \$2,500,000.

Annual Cash Dividends to Policy-Holders.

Policies and Dividends protected from Forfeiture.

The entire Profits are equitably divided among the Policy-Holders annually. Dividends are never forfeited (a feature peculiar to this Company), but may be paid to the Policy-Holder in Cash, or applied to increase the amount insured, from and after the Second Annual Payment, at the option of the holder.

It is the only Company which applies its dividends to hold good a policy which otherwise would be null and void from non-payment of Premium. If a Policy which has a Dividend credited upon it lapses from non-payment of Premium, the Company will hold the Policy good for such a proportion of a year (or years) as the Dividend bears to the annual Premium. For instance, a man paying a Premium of \$365 annually on a Life-Policy of \$10,000, and having Dividends of \$288 standing to his credit, would be held insured for \$10,000 for 288 days (9 months 18 days), after failing to pay his Premium! In some cases, the accumulated Dividends would keep a Policy in force several years.

CYRUS CURTISS, Pres't. W. A. BREWER, Jr., Vice-Pres't. WILLIAM HAXTUN, Sec'y.

Policy-Holders in this Company, to whom we refer by permission.

BEST SYRINGE IN THE WORLD!

After two years' practical test, it is finally conceded by the prominent Physicians throughout the United States, that the Fountain Syringe is superior to all others, whether used as a DOUCHE FOR CATARRH, or for any other purpose where an enema is required. Be sure and send for a circular before purchasing any of the BULB SYRINGES. We refer by permission to Chas. E. Buckingham, M.D.; John P. Reynolds, M.D.; George Hayward, M.D. Dr. Winslow Lewis says: "During a professional life of nearly fifty years, he has used all the various syringes made here or abroad. All of them are more or less complicated, the valves soon getting out of order, and those without valves inconvenient. 'The Fountain Syringe' satisfactorily accomplishes all the desiderata required. It deserves all success and

undoubtedly will command it."

VOICE-BUILDING.

This is a new and verified Theory for the Mechanical Formation of the Voice.

Its principles are simple and definite; and, when it is reduced to practice, it is certain in its results. It restores debilitated throats, and so forms the voice as to completely protect the organs from injury, and prepare them for the discipline of Elocution.

BUERK'S

Watchman's Time Detector.

THIS WATCH-CLOCK was introduced to the public in almost every section of the United States and Canadas, about ten years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts, and corrected deficiencies which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed; but with this, a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger; but, when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks: a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building; and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

The instrument will, in all cases, be warranted perfect and satisfactory. Its price is invariably

Seventy-Five Dollars, Cash on Delivery,

Including as many Keys as are requisite, not exceeding twelve.

This Watch-Clock is sold at a less price than any other in the market.

The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the United States, from whom numerous testimonials have been received.

N. B. — Parties purchasing these Clocks should test them sufficiently in the counting-room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

All communications promptly attended to.

ADDRESS:

J. E. BUERK, Proprietor,

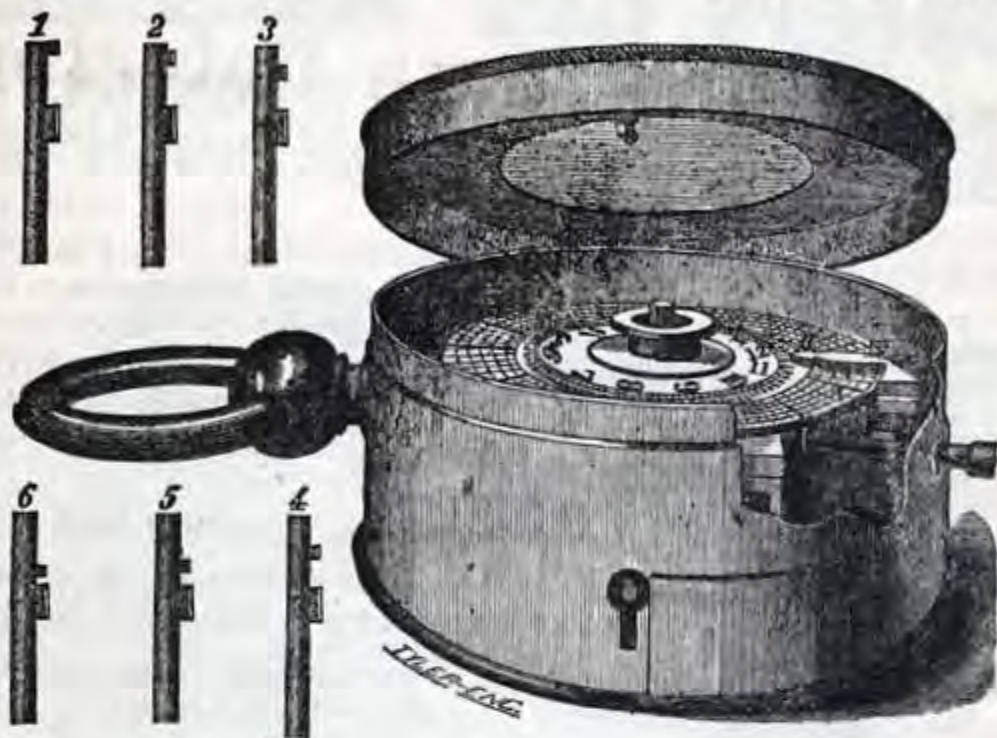

47 CONGRESS STREET, BOSTON.

P. O. BOX, No. 1057.

N. B. — It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand **POUCHES**, with Straps to go over the shoulder and around the body, which I will send with the Clock, if ordered. Price, \$2.50.

This DETECTOR is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.

Buerk's Watchman's Time Detector.

All large corporations or manufacturing concerns employ Watchmen, who look to the safety of the several buildings, and are expected to be vigilant in guarding the interests committed to their charge. Property of immense value is thus at the mercy, so to speak, of one man; for, if he is neglectful of his duty, he is not only dishonest, but jeopardizes the daily bread of numberless persons who may have funds invested in the concern.

To hire one Watchman to look after the other would not be a very wise proceeding; for, by collusion, they might set at naught all such precautions. Recourse is therefore had to machinery, — silent, insensate wheels and springs. By the judicious combination of these, tales can be told which result in the dismissal of the untrustworthy servant, or his retention and reward if found worthy.

The above engraving is a view of a Time Detector, which is carried about by the watchman to all the different stations to be guarded. At each station is a small key, securely fastened to prevent his taking it with him. The watchman goes from station to station, takes the key fastened there, inserts it into the clock, gives it one turn, and goes on to the next, or to any other station, for he is not bound to go in regular order. By this, it follows that a perfect record will be kept of each operation.

The broken-out portion of the watch shows the mechanism which operates the pin which pricks the paper. At A, there is a number of sliding bars which connect with the pricking points, so that, by turning round the key, the ward on it strikes a certain bar, and penetrates the dial paper B. By that act, a small hole is made in the paper, which tells what time the man appeared at each station; how often he came there; how long he stopped; how long it took him to go from one to another; whether he went in regular order or not; in short, it gives a complete record of his night's work.

The small figures are views of different keys. A flange on the side of the key prevents it from being turned unless it is inserted quite into its place; so that the key used for one station cannot be used to make a mark for a key at another, nor, indeed, can any key except a perfect duplicate be made to do it. Any attempt on the part of the watchman to evade his duty by counterfeiting keys may be effectually baffled by occasionally changing keys from one station to another. An indefinite number of stations can be served.

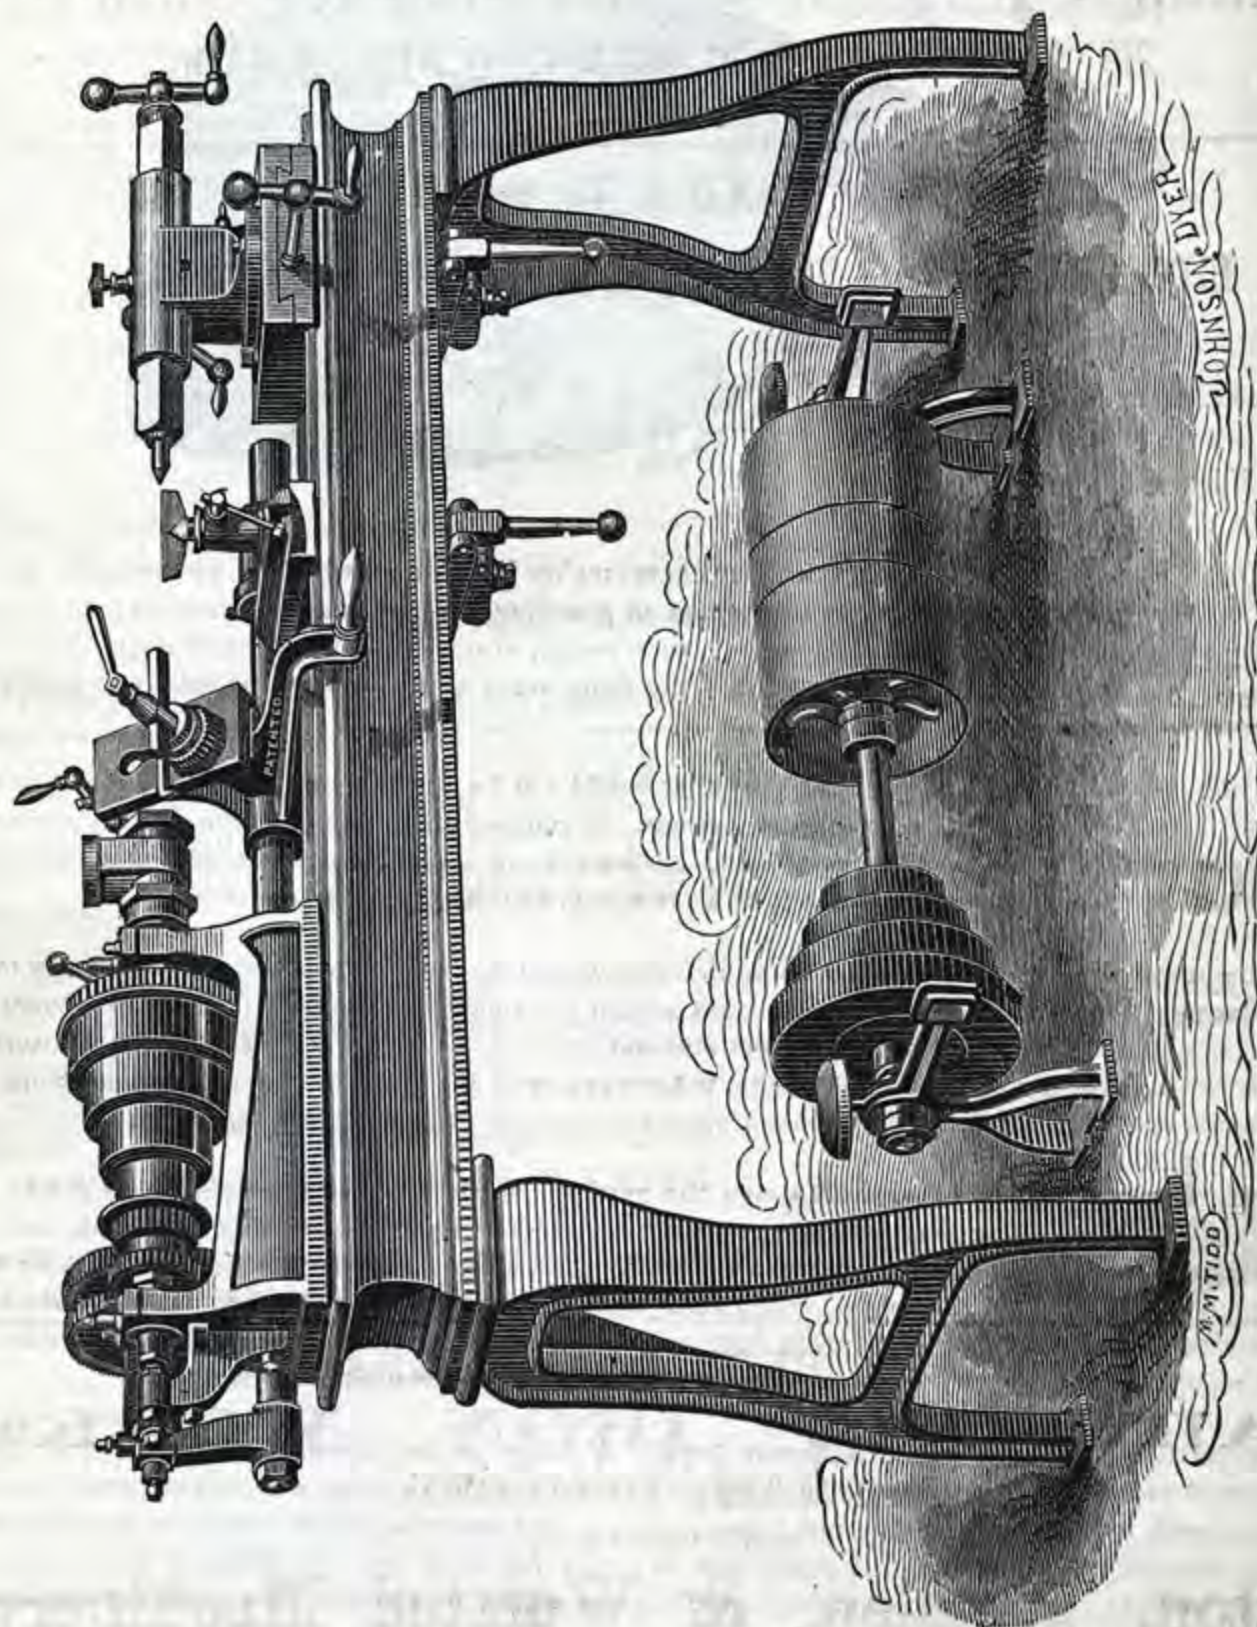

The watch is wound, set, and closed each evening by the proprietor or superintendent, and the box locked with a key which he keeps, so that the register within is unseen by, and out of the reach of, the watchman who carries it. In the morning, when the Detector is returned to the superintendent, the graduated disk of paper may be removed from its position, and filed, like a telegraph despatch, as a permanent record, while a new disk is applied for succeeding records.

BROWN'S PATENT C SPRING PLEASURE WAGON.

The superiority of this wagon is now conceded by all good judges of light carriages. They are the **Lightest, Easiest Riding, and most Durable Vehicle** in use, which, with their stylish and graceful appearance, renders them especially desirable for pleasure riding.

Worthless imitations have been put on the market, one of which is called the "California Wagon," with clumsy C Spring, made of wood. This is an infringement, and people are cautioned against building or using them. The C Springs in the genuine "Brown Wagon" are made of the finest steel, — the only suitable article for C Springs.

The inventor of this popular wagon, B. F. Brown, of Dorchester, Mass., has made their manufacture a specialty for the past sixteen years, always aiming to perfect them, and has of late made some valuable improvements, one of which is an entirely new and greatly improved "sweep wheel," the best ever applied to a light carriage. This completes the "Brown Wagon," making it the steadiest and most perfect running carriage ever made, and superior to any other for a road wagon to speed in. These wagons are made throughout of the very best materials and workmanship, "with and without tops," and warranted to give entire satisfaction. Persons proposing to purchase will do well to call and examine these carriages, with the new improvements, before purchasing elsewhere.

B. F. BROWN, DORCHESTER, MASS.

N.B. — Persons in Boston and vicinity wishing repairs done on the "Brown Wagon" will find it much to their advantage to send them to the manufacturer. Customers in New York are advised to send to F. B. Wood, No. 219 West 10th street, who thoroughly understands these wagons, and will do justice to them.

ROBINSON'S PATENT System of Ventilation,

For Churches, School-rooms, Prisons, Stables, Factories, and Workshops, Drying and Dressing Rooms, &c.,

Founded on the only correct theory of Ventilation, has been applied, in many hundreds of cases, with universal success. On page 37 of the Boston School Report for 1863, see this:—

"In the nearly, or quite, unanimous opinion and experience of the members of the School Board, the System of Ventilation represented by Robinson's Instruments, is the best now in the market. Their judgment, in this respect, is based, not upon mere theory, but on positive, indisputable facts. In the Bowditch Grammar School-house, and in the Primary School-house on Harrison Avenue, the success of these Ventilators has been complete and entirely satisfactory, and CANNOT BE QUESTIONED."

Clothes Wringers, &c.

POSSESSES all the desirable qualities of the Standard Machines in the market. In its Capacity — being the LARGEST Family Machine made. In its Simplicity — being composed of but THIRTEEN WORKING PARTS. In its Adaptability to a wide range of work. In its Ease of Operation — running light and quiet, and being easily comprehended. In its Superior Construction and Beauty of Style and Finish. But its principal feature is its

VERTICAL FEED, which is the most practical and desirable device for the purpose possessed by any Machine, giving The Davis the preference, and which the Manufacturers claim makes it

Superior to all other Machines.

THE DAVIS has been before the public nearly Ten Years, and, unlike other Machines, has not been puffed into notoriety, but in a quiet way has earned a great reputation on account of its many desirable qualities. Agents are desired in every town in New England not already occupied.

E. D. SPEAR, M.D., THE OLD INDIAN DOCTOR,

SO MUCH CELEBRATED FOR HIS REMARKABLE CURES.

Office, 713 Washington Street, - - - BOSTON.

THE medical record of Dr. E. D. SPEAR, as a successful physician in the treatment of chronic diseases, is without parallel. Many are suffered to die who might be saved. Dr. Spear makes a direct appeal to the substantial, intelligent, and cultivated citizens of our country, and asks that his claims as a physician of extraordinary powers may be investigated. If you are beyond human aid, Dr. Spear will not deceive you. If you have ONE CHANCE, he will save you. Come to his office, and consult him, free. If you cannot visit him, consult him by letter.

STATEMENT OF WM. B. TRASK, ESQ.

DORCHESTER, November 22, 1855.

DR. E. D. SPEAR. Dear Sir,—I have long been desirous of expressing in writing my grateful appreciation of your kind and beneficial service to me when an invalid. I went to you, an entire stranger, on the 28th of August, 1856,—more than nine years ago,—about as weak in body as one could be, and walk. I had become thus reduced by a long and close application to a business unsuited to my condition. My blood being in a bad state, an irregularity of circulation was produced, and a derangement of the vital organs, which would probably have soon terminated fatally, had there not been an immediate application of the proper remedies. Your excellent medicines and timely advice soon produced a change, slowly but surely, renovating the whole system.

By continued perseverance in following out your judicious directions, I owe, under Providence, my restoration to what my friends and myself consider a good degree and permanency of health. I would therefore cordially recommend to those who are afflicted, a fair trial of what I consider your superior medical treatment. With sincere regards, I am, yours truly,

WM. B. TRASK.

Words will not suffice in this case to describe the remarkable effects of the Doctor's treatment.

Mr. DOE previous to
treatment.

From a Photograph of Mr.
Doe, taken April 9th, 1869.

For the benefit of the sick, I wish to make a statement of my case. I had been gradually failing in my health for some time, when I was taken with severe bleeding. My cough grew troublesome. I raised very bad matter from deep down in the lungs. The bleeding returned upon me frequently; in January, 1868, having had an alarming fit of bleeding, I thought, unless I soon got relief, my days would be few. My hope was about gone. Seeing Dr. SPEAR'S card in the papers, I was reminded of several remarkable cures of his which had come under my notice. I concluded if he could not cure me, no one could,—I would make the trial. I immediately put myself under the Doctor's treatment, and, wonderful as it may appear in such an extreme case, not a week passed before I felt the good effects of his medicine, and in two months the change in me seemed miraculous. It has now been a year and a half, and I have taken a new lease of life. The Doctor tells me there is no reason why I may not live many years. The pen cannot convey the remarkable change in me. I have therefore furnished Dr. Spear with my photographs,—one taken before consulting him, the other taken the 9th of April, 1869. I know there is a strong feeling among some against a physician who advertises; but if there is one thing better than another, or one physician who is more likely to cure us than another, why not let the people know it? Dr. SPEAR cured me when I was seemingly beyond hope, and I wish to tell everybody about it.

BOSTON, July, 1869.

CHARLES O. DOE.

BOSTON, Sept. 10, 1870.

DR. SPEAR.—Dear Sir: My weight is now 183 pounds, the highest figure I have ever weighed.

DR. SPEAR can be consulted at his office, 713 Washington Street, Boston, or by letter, with stamp, free of charge, upon ALL diseases.

Those who have failed to be cured by other Physicians, are especially invited to call on Dr. Spear.

Patent Papered Wood Hangings. THEY CAN BE WASHED.

Their rich colors and steady, perceptible improvement with age; steam or furnace heat, dampness, or frost having no effect upon them. The protection and strength they give to the plastered walls favorably impress every one with the economy and desirability of this artistic mode of decoration. Halls, Libraries, Vestibules, Reception, Dining, and Bath Rooms, Chambers, Kitchens, and Closets, &c., are constantly being finished in the most costly houses. Closets finished in Red Cedar; Pantries, in White Wood; China Closets, in Ash or Maple. Elegant

WAINSCOTING OR DADOING,

With the Choicest Varieties of Woods, native and foreign.

PINE DOORS, PIANOS, ORGANS, COUNTERS, BASE-BOARDS, WELL-ROOMS, veneered with this Patent Papered Wood Hangings, give the most perfect satisfaction, heat and dampness having no effect, and being more easily applied.

Architects and Builders generally are rapidly introducing them, and conforming their plans to this mode of decoration.

TESTIMONIALS.

Boston, Dec. 24, 1870.

It is with the greatest pleasure we acknowledge the solid and elegant effect produced by your Patent Papered Wood Hangings in the halls, dining-rooms, and vestibules of "The St. Cloud Hotel." In the construction of this building, we have, as trustees, studied the most rigid economy consistent with durability; and it being within our own knowledge, that for the past three years your woods had remained wholly unaffected by steam, furnace heat, and dampness, we had no hesitation in using them almost exclusively in the interior decoration. We heartily congratulate you upon the success with which you are meeting. Very truly,

GEORGE B. BIGELOW, for Trustees of Buffington Estate

Boston, Nov. 16, 1870.

Since the first introduction of your Patent Papered Wood Hangings, we have had you apply over six thousand (6,000) feet of Dado in Black Walnut, White Wood, Butternut, and Oak. We have also used your Cedar and White Wood Hangings for Closets, Pantries, and Bath Rooms. Your work has proved to be unaffected by dampness, steam, or furnace heat, and while the cost is far below solid wood, you are enabled to give us the choicest varieties. The work you have just finished for us exceeds in elegance of woods and workmanship all your former efforts. Accept our congratulations in your present success, which must rapidly increase with a general appreciation of the elegance and durability of this mode of decoration. Yours very truly, &c.,

We would beg to call attention of Stove Dealers and Founders to "The Rising Sun Stove Polish in Bulk," which we are assured is the finest, purest, most brilliant, and durable Stove Polish in the world. We are able to offer at the following reduced rates, — in all cases at the Factory: —

25 lbs. and 50 lbs. boxes at 12 1-2 cents per pound.

Every enterprising Stove Dealer has learned that a new or old stove, well polished, looks and sells better than not polished, or poorly done; and as good materials to polish a stove cost only three cents, it is cheaper to have the above article at price charged than an article usually sold, for nothing. The article in bulk is the same as in papers, except it is pulverized fine, and cannot fail to give universal satisfaction. No charges for Boxes.

MANUFACTURER OF THE

RANDALL SKELETON GRATE BAR, *PATENTED FEBRUARY 9th, 1869.*

TESTIMONIALS.

A. O. CORBETT. Dear Sir,—In answer to your request for my opinion as to the value of the Randall Skeleton Grate Bar, I will say that I am well acquainted with the form and working of them, and can safely certify that I believe them to be the best in use. First, because they give more air space for a given amount of surface than any that I know of. Second, they are calculated better for an equal thickness of metal, thereby preventing warping or cracking. Thirdly, they require less weight of iron to make a given surface of grate. Reasons sufficient to make them the best grates now known.

Yours truly,

PORTLAND, March 2, 1870.

JOHN SPARROW.

A. O. CORBETT. Dear Sir,—I have used the Randall Patent Grate Bar nearly a year, and they are the best I ever used. They work admirably.

MILFORD, March 12, 1870.

R. C. HUSSEY.

Having used the Randall Skeleton Bars, in connection with the three large Steam Boilers attached to the St. James Hotel for nearly two years, I do not hesitate to recommend them, especially for durability, and also for general excellence for the purpose designed.

BOSTON, March 26, 1870.

M. M. BALLOU, Prop. St. James Hotel.

A. O. CORBETT. Sir,—I have been using the Randall Grate Bars in one Furnace, on board steamer Star of the East, since April 15, 1868. I find them the best I have ever used. They give better draught, and burn the coal up cleaner, and leave less ashes and clinkers than any grate I ever used.

BOSTON, Dec. 10, 1869.

L. S. DAVIS, Chief Eng'r Star of the East.

A. O. CORBETT. Dear Sir,—We have given your Grate Bar a trial for the last three months, and it has given perfect satisfaction. We have given it some severe tests with leather chips, which make the hottest fire.

WORCESTER, Jan. 27, 1870.

D. G. RAWSON & CO.

A. O. CORBETT. Dear Sir,—We have been using a set of the Randall Skeleton Grate Bars seventeen months. They have not warped in the least, and are as good as new. We cheerfully give you this testimonial, in answer to your inquiry.

BOSTON, March 3, 1870.

C. WRIGHT & CO.

A. O. CORBETT. Dear Sir,—The set of Randall Skeleton Grate Bars put into one Furnace on board this vessel are yet all right. They have been in constant use since Sept., 1869. You are at liberty to refer to me to any one inquiring about them.

BOSTON, April, 1871.

Yours respectfully,

A. J. SAVAGE, Chief Eng'r Steamship Geo. Appold, Baltimore and Norfolk Line.

BOSTON, April 7, 1871.

A. O. CORBETT. Dear Sir,—In answer to your inquiry about the Randall Skeleton Grate Bars, put in here in Dec. last, I state with pleasure, that, being determined to test them thoroughly, I have kept an accurate account of coal used, and find up to this date that I have used ten and a quarter tons less than in the same length of time last year.

Signed,

C. KNOWLTON, Eng'r in charge Heating Apparatus of Macular, Williams, & Parker.

D. P. Mathews' Patent Compound,

For Fattening and Improving Horses, Cattle, Sheep, Swine, and Poultry.

This Compound is now being extensively used by raisers of Horses and other stock, and, after one trial, all admit that it has no equal for fattening and improving the condition of their stock. It is not a medicine, but regulates the digestive organs, increases the flow of blood, and invigorates the system, giving tone to the stomach and new life to the whole frame. It contains nothing injurious, but more nutriment than either corn or oats, and is highly beneficial both in health and disease; for a horse out of condition or ailing, this Compound will restore to health in a very short time; given to Cows, it corrects bad habits, increases the flow and quality of the milk, and at the same time keeping the animal fat and smooth. It is also unsurpassed for fattening Hogs and Poultry.

Address orders for Compound or for State and County Rights to D. P. MATHEWS, 156 Commercial Street, Boston. Retail Price, \$3.00 per Box. Send for copy of Circular with Testimonials.

TESTIMONIALS.

From Messrs. GUILD & DELANO, Jewellers, 2 Winter Street, Boston.

We have used the BONE POLISH, and from our experience should think it one of the best articles in the market for general use, and adapted to a wider range of uses than any other polishing material we know of. Its fine grain gives a high polish upon metals, while upon glass it leaves a brilliant lustre.

From Messrs. HENDRICKSON, DOLL, & RICHARDS, Dealers in Looking-Glasses, &c., 28 Summer Street, Boston.

We have used the BONE POLISH for Cleaning Glass for Silvering, and have always found it very satisfactory. Can cheerfully recommend it.

From Mr. ASA RICE, in charge of Boston and New York Sleeping Cars.

I have used more than one hundred boxes of your celebrated BONE POLISH, and can recommend it in the highest for every thing you advertise it for. I have used a great many different kinds of Polish; the Bone Polish excels all others.

From Mr. B. W. HOBART, Station Agent, Boston and Albany Rail Road.

The celebrated BONE POLISH has long been used in cleansing the Car Windows, Mirrors, Silver-Plated Trimmings, &c., on the Boston and Albany Rail Road, and is an excellent and unequalled article for the purpose.

Having sold "The Celebrated BONE POLISH" to our customers, we certify to its satisfactory and superior qualities as a Polish for Metals, Glass, &c., and we regard it as unequalled in its line of utility.

HOVEY'S ELIXIR OF CALISAYA.

This elegant preparation is offered as one well adapted to meet the wants of all those who require a tonic and cordial medicine.

It is prepared from the best variety of the "Peruvian Bark" known as "Calisaya Bark," the bitter taste of which, in this Elixir, is covered, while its efficiency is enhanced by the aromatics with which it is combined.

It will commend itself to favor by its valuable tonic and invigorating action; while its delicate flavor will please even the most fastidious.

In all diseases arising from a want of tone or vigor in the digestive organs, such as loss of appetite, dyspepsia, &c., its use will be attended with marked advantage; and in climates where Fever and Ague, and maladies caused by malaria are prevalent, it will be found a most valuable medicine.

As a general tonic it is highly recommended.

A NEW STOVE

ON A NEW AND MODEL PLAN.

CHILSON'S CONE-DISK STOVE.

This is a plan for a Stove that has long been wanted for *greatly economizing in the consumption of fuel* in warming offices, stores, workshops, railroad cars, factories, &c. It has been got up after a long and careful study, expressly for economy in fuel and for warming the air in the lower part of the room, as well as the floor, for a great distance around the Stove, instead of its ascending to the upper part of the room, as is the case with the common Stoves, and for keeping a continuous fire day and night. When once seen in operation, it will convince every one of its great superiority. It is very simple to manage, and is made in the most substantial and durable manner, wholly of cast iron, of a new and beautiful design. Sizes suitable for rooms from 15 feet to 100 feet square.

ALSO A NEW OVALED PARLOR STOVE,

of a new and beautiful design. Also several sizes of

CHILSON'S NEW COOKING STOVE,

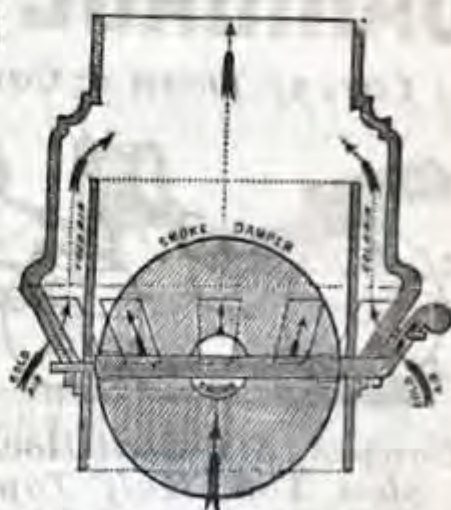

Which has been declared to be the most perfect Cooking Stove in the world. A single examination will prove all that is claimed for it.
